

# Playful Post Activity Sheet 2: Design Your Own Postcard

## Resources

- Postcard template
- Pencil
- Colouring pencils or pens
- Scissors
- Ruler
- Option: Plain paper or card

## Instructions

You can either print this template and cut it out or create your own blank postcards on plain paper or card using a ruler and the measurements shown.

This is the back of the postcard where you write your message and put the address and a stamp.

On the front you can draw a picture of anything, a special place, a person, your favourite toy or TV show! Then why not colour it in?
